

DECLARATION OF COMPLIANCE

COMPANY NAME: ENTECO PHARMA, S.L.

SANITARY REGISTRATION No: 39.00003766/M

REFERENCE: 3520A06 / 3520B06 (Aluminum lidding foil 20 µm + 6.5 gr/m² Heatseal lacquer to PVC / PVDC)

This certificate confirms that afore mentioned packaging material was produced, according to the information from our suppliers, in accordance with the following legal regulations:

- **EU Regulation 2023/2006** Good manufacturing practice requirements for materials and articles intended to come into contact with food.
- The material conforms to the legal requirements of **Regulation 1935/2004/EC** for “Materials and articles intended to come into contact with food”.
- The material is in accordance with **Regulation (EC)10/2011** regarding plastic materials and articles intended to come into contact with food, as well as its amendments (including EU Regulation 1183/2012).
- The following guidelines, Directives and Standards are also adhered to:
 - **1895/2005/EC** “Epoxy derivates”
 - **78/142/EC** “Limit of vinyl chloride monomer in PVC”
 - **Regulation (EU) 2025/40**, in relation with “Heavy metal content”
 - **EN 602:2004-07** “Aluminum & aluminum alloys in food contact”
 - **EMA/410/01 Rev.3** (Note for guidance on minimizing the risk of transmitting animal spongiform encephalopathy agents via human and veterinary medicinal products)
 - **Resolution ResAP 2004(1)** concerning coatings intended to come into contact with foodstuff.
- The material is in compliance with the provisions of the current version of **European Pharmacopoeia** **Pharagrafs 3.1.11 and 3.2.2**
- The material fulfills the following national legal regulations and guidelines:
 - **USA: US FDA 21 CFR 175.300** (Heat-seal lacquer, print primer)

This certificate confirms that afore mentioned packaging material, according to the information from our suppliers, does not contain:

- Gluten
- Latex
- Lactose
- Sucrose
- Glutamate
- Sulfites
- Ethyl Alcohol
- TSE/BSE
- Nuts and traces of nuts
- Bisphenol A
- Benzophenone

Please note that since these substances are not expected to be present, we don't measure their level in the finished product.
