

Subject: **ELEMENTAL IMPURITIES**

General Product Information

Producer	Constantia Fromm GmbH Föhrenbachstraße 1 DE-73630 Remshalden	+49 7151 3 69 04-0 fromm-office@cflex.com www.cflex.com
Customer	Sanofi-Aventis Deutschland GmbH Industriepark Hoechst, DE-65926 Frankfurt am Main	
Product description, base material printed at C.-Fromm	- Transparent bundling film: 40µm BoPP - C.-Patz specifications: PATZ 377/ALU-H 20M dull, PATZ 42192/ALU-H 20 dull	

Statement

This Statement is according to the ICH Guideline Q3D: „GUIDELINE FOR ELEMENTAL IMPURITIES” – final version, 24 September 2022

Identifying the potential elemental impurities extracted from container closure systems should be based on a scientific understanding of likely interactions between a particular drug product type and its packaging. If the container closure system does not contain elemental impurities, no additional assessment needs to be performed. It is recognized that the probability of elemental leaching into solid dosage forms is minimal and does not require further consideration in the assessment.

Constantia Fromm GmbH hereby states that the sum of the concentration levels of lead, mercury, cadmium and hexavalent chromium present in any package or package component does not exceed 100 parts per million by weight (requirements of directive 94/62/EC on packaging and packaging waste).

Other elemental impurities are not intentionally added due to information of our raw material suppliers. The only metals present in the foil are in the aluminum alloy.

Disclaimer

This confirmation is based on current raw material data information and our knowledge of manufacturing processes and the proper use of the materials. The information is given in good faith and to the best of our current knowledge.

Constantia Fromm GmbH

i.A. Micha Weik, Head of Quality Management

This declaration is addressed exclusively to the company named above and replaces all previous declarations. After having stopped the delivery for more than 12 months, this declaration loses its validity for new deliveries of the product under consideration.
