

Compliance to Regulation (EU) 2024/3190.

Present declaration of Aluberg S.p.A., located in via Rebecchi, 1 24060 Bagnatica (BG), Italy, is aimed to grant that following materials:

- **31U02**
- **31U03**

basing on information in our hands, are in compliance with Regulation (EU) 2024/3190 and Regulation (EU) 1272/2008 as Bisphenol A as well as hazardous bisphenols other than BPA aren't present as intentionally added substance (IAS), even if it's a precursor for a resin present within the products as a minor component. Aluberg S.p.A. has obtained formal confirmation in this sense from its raw material suppliers.

Moreover, we would like to point out that Aluberg has conducted analysis in order to assess presence and/or concentration of Bisphenol A within the products, which is below the detection limit foreseen by a.m. Regulation.

For a.m. reasons they will not be affected by deadlines mentioned within the Regulation and, in particular, they will be manufactured and marketed also after January 20, 2028.

We think that present statement is answering to your request in a satisfactory way, however, if this will not be the case, please feel you free to revert to us.

Best regards

Aluberg S.p.A.

GENERAL MANAGER
