03.07.2024**GUIDANCE FOR SAFE USE**

In view of the 'REACH' Regulation 1907/2006, we cannot issue a formal "safety data sheet" for our products, since they are not a dangerous substance or preparation within the scope of Article 31 of the Regulation.

The information provided in this document together with our good manufacturing practices, are deemed to fulfil our obligations under the General Product Safety Directive 2001/95/EC.

1. IDENTIFICATION

This document concerns our product: lacquered, laminated, extrusion-coated and printed aluminium foils and strips for packaging of food, pharmaceutical and technical applications.
as supplied by AMCOR FLEXIBLES SINGEN GMBH

2. INFORMATION ON COMPOSITION AND INGREDIENTS

film material based on following substrates: polyethylene, polypropylene, polyester, aluminium, polyvinylchloride,
paper
with addition of the following materials: adhesive, coating, printing ink

3. HAZARDS

critical hazards to man: none expected.
critical hazards to the environment: none expected.
remaining main potential hazards: acrid fumes from partial burning under non-ideal conditions;
hazards from handling film reels (lifting, cutting, dropping, ...);
mechanical irritation to eye and skin;
static discharge.

4. FIRST-AID MEASURES

when exposed to fumes: bring person out in open air; medical attention is advisable.
when exposed to burning / molten material: abundantly flush with cold water; immediate medical attention is needed;
do not attempt to remove molten material from the skin.
when injured during handling of rolls: medical attention is advisable.

5. FIRE-FIGHTING MEASURES

5.1. suitable extinguishing media: water, carbon dioxide, foam, dry media.
5.2. unsuitable extinguishing media: none.
5.3. combustion products: complete combustion of plastics leads to CO₂ and H₂O plus other gases depending on the material's composition; at incomplete burning CO, NO_x and organic acids and aldehydes will form.

6. ACCIDENTAL RELEASE MEASURES: not applicable.**7. HANDLING AND STORAGE**

7.1. handling of the material: handle film reels with appropriate tools;
wear protective gloves, shoes and/or glasses when appropriate (see 8.2.).
7.2. storage of the material: no safety issues expected from storage conditions.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

8.1. exposure: not known to be hazardous.
8.2. personal protection: use appropriate tools to handle film reels and wear safety shoes.
when cutting film use safety knives and wear protective gloves and glasses.

9. TOXICOLOGICAL INFORMATION: our product is not known to be toxic to humans.**10. ECOLOGICAL INFORMATION:** our product is not known to be toxic to the environment.**11. DISPOSAL CONSIDERATIONS:** consult local provisions on waste disposal.**12. TRANSPORT INFORMATION**

assure proper immobilization of film reels during transport.
